From: **Ann Louise Olson, PhD, on behalf of the Research Symposium Committee**

To: **All Researchers Interested in Diabetes**

Date: **September 5, 2023**

Re: **Call for Abstracts and Participation**

DEADLINE FOR ABSTRACTS: Friday, September 22, 2023

The twentieth annual Harold Hamm Diabetes Center Annual Research Symposium will be held Friday, November 10th from 7:30 AM to 6:30 PM at the Samis Education Center in Children's Hospital in Oklahoma City.

We look forward to welcoming you to our twentieth Diabetes Research Symposium and invite you to submit your work to this event. The **Harold Hamm Diabetes Center** works to facilitate communication and collaboration between researchers from all disciplines whose work relates to diabetes.

The symposium will consist of selected oral presentations, and a keynote address by Mark A. Herman, M.D., E.L. Wagner, M.D., Chair of Internal Medicine II, Chief, Section of Endocrinology, Diabetes and Metabolism, Balor College of Medicine. Submission of abstracts for oral presentation is open to all, but work by trainees and junior faculty is especially encouraged.

The short oral presentations by trainees will be recognized with awards given to the authors based on judges' review. Abstracts from Junior faculty will be selected for either short oral presentations or poster presentations, but are not award eligible.

We therefore request:

1. **An abstract** from those who wish to present their work at the meeting to be submitted by **Friday, September 22nd** to Lark Zink (lark-zink@ouhsc.edu). Please use American Diabetes Association abstract format – see attached sample.

- a. Margins are 1.25 inches for top and bottom and 1.25 inches for left and right
- b. Font should be size 12, Times New Roman
- c. Title should be centered and in all caps
- d. Please specify the department and university at which the work was performed
- e. Paragraphs should be indented and double spaced between paragraphs
- f. A statement (see below) identifying abstracts to be considered for awards.

Please note, if your abstract is not submitted properly, it will be returned to you for correction

2. **A research program summary** from principal investigators that delineates the major areas of research interest. Maximum 1 page. Same margins and fonts as for abstracts.

Eligibility for awards will be restricted to presentations where a trainee (MD fellows, residents, post-docs and students) is the first author and presenting their work. **If the work is eligible for an award, please indicate so at the bottom of the abstract page with the following statement: “The authors request this work be considered for a Diabetes Research award.”** For questions about eligibility, contact Ann-Olson@ouhsc.edu.

Deadlines:

Submission of Abstract for Presentation: **Friday, September 22, 2023**

Submission of Summary of Research Interest for the handout: **Friday, September 22, 2023**
